## Description

Introducing the HE-VA 3m Stealth, an agricultural powerhouse designed to optimise your seeding operations. Equipped with reliable shearbolt technology and 470mm scalloped disc openers, this unit guarantees efficient soil penetration and seed placement. Featuring 15mm Hardox legs and Stealth points with 120mm wide wings, are constructed from robust cast steel tungsten for enhanced durability. With 2 rows of staggered legs set at a 350mm stagger and variable width leg spacings (500mm standard), this implement adapts to your specific field requirements. Boasting an impressive 700mm of under frame clearance and a 600mm V profile roller, it ensures impeccable ground clearance and a smooth finish. Enjoy ease of use with hydraulic depth control directly from the tractor seat across its 3m working width, equipped with 6 high-performance legs to revolutionise your seeding endeavours.

- ✓ 3m Working width
